

Field Service Technician

(three openings)

Responsibilities:

- Install, troubleshoot and provide customer training on high speed automated industrial inspection equipment.
- Provide hands-on technical assistance and customer support.
- Travel to customer site – up to 70% overnight.

Requirements:

- Two+ years field service experience.
- Strong computer skills.
- Presentation and training capabilities - this is about 50% of the job.
- Moderate electronics knowledge.
- Road-warrior traveler. Willing to travel on short notice, work over-time, occasional weekends.

We offer competitive compensation, 401(k) plan, health, dental, disability and life insurance. Qualified candidates should submit resume, cover letter, and salary history to:
